Medeco Means Security

Medeco High Security Locks offers a complete line of proven security solutions and the best value-added services in the industry. As the industry leader and the trusted source for virtually pick, drill, and bump resistant locks and patented keys for nearly 40 years, we offer an array of products to meet multiple security demands. Our users require security designed to adapt to changing situations and needs. Medeco’s products offer maximum flexibility without sacrificing security and control.

Product Solutions with Multiple Locking Technologies

	<p>Medeco³ – High Security with Patented Key Control: Medeco³ is our premier brand technology. These cylinders have earned a UL437 Listing, the ANSI/BHMA A156.30 Level A certification, and are classified as high security because of their superior resistance to physical attack and protection against unauthorized key duplication. Because of its superior key control, patent protection until 2021, and physical strength, we recommend Medeco³ products for new installations or when retrofitting systems that do not include small format interchangeable core cylinders.</p>
	<p>BiLevel – Patented Key Control Integrated With High Security: Medeco³ BiLevel cylinders offer patent protected key control but do not include the pick, drill, and bump resistant features of Medeco³ high security cylinders. These cylinders retrofit into existing hardware for locations where less security is required, but the convenience of a single masterkey system is a benefit.</p>
	<p>KeyMark – Patented Key Control Only: Cylinders featuring KeyMark technology offer patent protected key control but do not include the pick and drill resistant features of Medeco³ high security cylinders. Small format interchangeable cores (SFIC) as well as other cylinder options are available, so an entire master key system can be converted quickly and easily. These cylinders are perfect when a facility needs to upgrade its existing SFIC (or Best®-style) cylinders to improve key control without changing hardware.</p>
	<p>Hybrid Key – Open Architecture EAC with Patented High Security or Key Control: Hybrid Keys offer a single credential that can access both mechanical master key and electronic access control systems.</p>
	<p>Hybrid Cylinder – Open Architecture EAC with Patented High Security or Key Control: Hybrid Cylinders incorporate the function of common access control readers into an offline retrofit cylinder. (available mid-2008)</p>
	<p>Logic – Digital Keys and Cylinders: Logic electromechanical cylinders install like mechanical cylinders, with the added features of audit trails, schedules, and instant digital rekeying.</p>
	<p>Nexgen – Industrial Duty Electronic Keys and Cylinders: Nexgen provides access control, audit capability, route management, and physical security in one self contained electronic locking solution completely powered by the key.</p>
	<p>KeyWizard – Key System Management Software: The Key Wizard software system helps to manage the security for a facility, providing information from who has access to where and how the door is protected.</p>

Patent Protected Key Control

Medeco³, Medeco³ BiLevel, and KeyMark keyblanks carry utility patents to protect from unauthorized key duplication. Medeco aggressively acts to protect the security of the consumer by enforcing the legal rights provided by these patents. We have developed sophisticated patented key control systems to give users ultimate control of their keys. Medeco offers a number of programs that offer different levels of key control and are designed for the different needs of various types of users. More information about our key control policies is available in the technical section at the back of this book. The Medeco website (www.medeco.com) also provides a tool to help explain or determine the correct keyway program for you.

Superior Quality

All Medeco locks are manufactured in Salem, Virginia. Medeco takes pride in manufacturing a high quality lock made in America. Medeco locks are constructed of solid brass with hardened steel inserts and are precision handcrafted. We pride ourselves in offering products with carefully enforced key control options, extreme physical strength and superior quality and workmanship. In addition to these cornerstones of our product lines, Medeco cylinders feature these other benefits:

- Easy to Service
- Masterkey Systems of Virtually Any Size
- Professional System Planning and Design
- Ongoing Technical and Customer Support

Key Control

Medeco's Approach

The security of any locking system is dependent upon two very important factors. The first of these is protection against attacks such as picking, drilling, bumping and forcing. The second is the ability to control duplication of existing keys. Historically, unauthorized key duplication has played a major role in compromising even the most sophisticated security systems. Anyone with even temporary access to original keys has no problem getting duplicates made for their own use if the keys and key blanks are not patent protected. Even stamping "Do Not Duplicate" on a key merely warns someone not to copy the key – it is not a promise of legal protection or enforcement. The only way to ensure that keys cannot be copied without the consent of the owner is a key system with patent protected keys.

Medeco has counteracted the key control problem by doing three things:

1. Medeco manufactures cylinders which use keys that must be made on special key cutting machines. These machines are capable of reproducing the angled cuts and critical tolerances necessary to produce a workable Medeco key, and are not found at general hardware stores.
2. Medeco sells its high quality, precision machined cylinders and locks only to security industry professionals. Every Medeco key blank is custom coined and tracked by Medeco to identify it as an authorized key blank which protects against unauthorized copies.
3. Medeco invests heavily in research and development to establish strong patents and legal agreements to protect its locks and key blanks from unauthorized distribution or manufacture. In this way, Medeco can litigate to protect its rights and the security of its customers.

A Key Control Program That's Right for You

Not every user has the same key control needs. That's why Medeco has designed different key control programs and different keyways to meet a wide range of security specifications and key access requirements.

Dealer/Service Center

This program offers instant local access to additional keys with protection from unauthorized copying. Consumers simply return to the security provider from which they purchased the locks. This security professional will have a signature card on file completed by the owner of the key system at the time the system was installed.

Card Programs

Authorized individuals are issued a card with embossed control data and a space for their signature. To obtain key duplicates, card holders present the card to any participating Medeco security professional. The data and signature will be verified and a key can then be issued. A card program is ideal for residential or businesses that need keys available nationwide.

End User Program

The End User program is for large facilities that have their own locksmith on staff and that want to produce Medeco keys themselves. This program offers individualized control over key duplication procedures.

Commercial Program

The Commercial Program is designed for users who use Medeco locks primarily for protection against picking, drilling and other forms of physical attack. Keys may be obtained from any Medeco locksmith without specific authorization.

Factory Program

Additional keys are only available from the Medeco factory and only with the proper signature.

Visit our website at www.medeco.com for more information on all key programs.

E-CYLINDER

Flexibility Merged With Security

Medeco's E-Cylinder platforms merge the flexibility of electronics with reliable mechanical technologies—all in a retrofit cylinder. Medeco Logic offers end-users audit trail, user access schedules, and the ability to quickly add

or remove a key from a system. And, unlike other products, Medeco Logic installs with no wiring in a matter of minutes. Hybrid key allows users to carry a single credential that accesses both mechanical and electronic access systems.

Leverages Existing Hardware	●	N/A
Electronic Technology	CLIQ™	RFID

E-Cylinder Technology

Medeco E-Cylinders feature open architecture or closed architecture formats and combine both electronic and mechanical technologies for complete flexibility and control. Layering electronics on top of strong mechanical security systems provide greater overall security.

Digital masterkeying systems consists of digital keys and digital cylinders that work together to offer audit trails, user schedules, and the ability to easily add or delete a key from a system. Logic leverages CLIQ technology, (proprietary closed architecture electronic coding) and mechanical pinning technology to ensure that every system is electronically unique and physically secure. Logic comes from the factory programmed and ready to install. Logic cylinders install with no wiring, door prep, or related hardware.

Hybrid Keys leverage HID compatible Prox and iClass Smart Card technologies, (open architecture electronic coding) and Medeco masterkeying technology to allow systems to be merged for greater flexibility and control. The Hybrid Key is a dual technology credential that combines a Medeco mechanical blade with RFID technology. Hybrid Keys can be configured to operate hardwired HID readers, offline Hybrid Cylinders (soon to be released), Medeco³ high security (or older) cylinders and BiLevel cylinders.

Logic Technical Information

- ❖ 1,000 groups per cylinder/1,000 keys per group
- ❖ Audit either cylinder or key/up to 1,000 audit records (hardware dependant)
- ❖ 20,000 cycles battery life 2-level low battery indicator
- ❖ Multiple user access groups
- ❖ Uses proprietary CLIQ technology
- ❖ Available in all common cylinder formats including padlocks, cam locks, deadbolts, and cabinet locks
- ❖ Installs into standard hardware with no wiring or other modifications
- ❖ Reprogrammed with easy to use software and administration key

Hybrid Key Technical Information

- ❖ Available in 125 kHz Prox or 13.56 MHz iClass Smart Card technology
- ❖ Can be used with any HID compatible Prox or iClass system.
- ❖ Mechanical portion of the key available in all Medeco technologies.

Warranty

All E-Cylinder products (Logic and Hybrid) are warranted for two years against manufacturer's defects in materials and workmanship.

Rim Cylinders

Description	Part Number
Rim cylinder, horizontal tailpiece	10C0400H
Rim cylinder, Sargent panic device	10C0403

NOTE: All cylinders available with hardened steel nose by adding a D after the base part number.

Mortise Cylinders

Description	Part Number
1 1/4" Mortise cylinder	10C0500

All Logic cylinders and deadbolts include 1 key with cylinder

Key-In-Knob Cylinders

Description	Part Number
Cylinder for Arrow locksets	20C200A1
Cylinder for Arrow and Schlage locksets	20C200H1
Cylinder for Arrow H, S, L, M & Q Series knobs and levers	20C20249
Cylinder for Schlage D Series lever, Athens, Rhodes, & Sparta design	20C20249
Cylinder for Corbin Russwin 800, CL3300, CL3600	20C21173
Cylinder for Schlage type locksets	20C200S1
Cylinder for Marks type locksets	20C200V2

All Logic cylinders and deadbolts include 1 key with cylinder

Padlock Cylinders

Description	Part Number
System series padlock cylinder (padlock body sold separately)	51C0600
G8R Padlock Popout cylinder, deadbolt function (padlock body sold separately)	64C1201

All Logic cylinders and deadbolts include 1 key with cylinder

Commercial Style Deadbolts

Description	Part Number
Single cylinder deadbolt with 2 3/8" backset, 1 1/8" front	11CC601
Single cylinder deadbolt with 2 3/4" backset, 1 1/8" front	11CC602
Single cylinder deadbolt with 2 3/8" backset, 1" front	11CC603
Single cylinder deadbolt with 2 3/4" backset, 1" front	11CC604
Single cylinder deadbolt with 2 3/8" backset, drive-in front	11CC605
Single cylinder deadbolt with 2 3/4" backset, drive-in front	11CC606
Single cylinder deadbolt, less bolt assembly	11CC60L

All Logic cylinders and deadbolts include 1 key with cylinder

Residential Style Deadbolts

Description	Part Number
Single cylinder deadbolt with 2 3/8" backset, 1 1/8" front	11CR601
Single cylinder deadbolt with 2 3/4" backset, 1 1/8" front	11CR602
Single cylinder deadbolt with 2 3/8" backset, 1" front	11CR603
Single cylinder deadbolt with 2 3/4" backset, 1" front	11CR604
Single cylinder deadbolt with 2 3/8" backset, drive-in front	11CR605
Single cylinder deadbolt with 2 3/4" backset, drive-in front	11CR606
Single cylinder deadbolt, less bolt assembly	11CR60L

All Logic cylinders and deadbolts include 1 key with cylinder

Cam Lock Cylinders

Description	Part Number
7/8" Cam lock, 90 degree CW, 1 key pull	60C8101
7/8" Cam lock, 90 degree CW, 2 key pulls	60C8102
7/8" Cam lock, 90 degree CCW, 1 key pull	60C8103
7/8" Cam lock, 90 degree CCW, 2 key pulls	60C8104
7/8" Cam lock, 180 degree CW, 1 key pull	60C8105
7/8" Cam lock, 180 degree CW, 2 key pulls	60C8106
7/8" Cam lock, 180 degree CCW, 1 key pull	60C8107
7/8" Cam lock, 180 degree CCW, 2 key pulls	60C8108
1 1/8" Cam lock, 90 degree CW, 1 key pull	60C8201
1 1/8" Cam lock, 90 degree CW, 2 key pulls	60C8202

Cam Lock Cylinders

Description	Part Number
1 1/8" Cam lock, 90 degree CCW, 1 key pull	60C8203
1 1/8" Cam lock, 90 degree CCW, 2 key pulls	60C8204
1 1/8" Cam lock, 180 degree CW, 1 key pull	60C8205
1 1/8" Cam lock, 180 degree CW, 2 key pulls	60C8206
1 1/8" Cam lock, 180 degree CCW, 1 key pull	60C8207
1 1/8" Cam lock, 180 degree CCW, 2 key pulls	60C8208

All Logic cylinders and deadbolts include 1 key with cylinder

Cylinder Options

Description	Part Number
Cylinder Sold Less Key	LK-NOCLIQ-KEY
Optional Hardened Steel Nose	Replace "___" with "D"

Keys Only

Description	Part Number
C-Key	KY-4260C0
E2 User Key - Key Only	KY-426020-XXBK
E3 User Key - Key Only	KY-426030-XXBK

Management Tools

Description	Part Number
Service Kit and Product Certification Training	94-0224
End User Kit (Manager Software with Programming Device)	94-0225
Programming Device (Includes USB Cable)	EA-100099
Manager + Software (Multiple System)	EA-900082
Manager Software (Single System)	EA-900081
Logic System Planner Software	EA-900083
Logic Electromechanical Lube	PX-KYLUBL-50

HOW TO ORDER HYBRID KEYS

1. Determine if key heads are programmed or not programmed. Determine whether programmed key heads will be Prox or iClass technology. Use part number chart to select the part number any particular Hybrid Key configuration.
2. List keyway code.
3. List quantity.
4. List Site Code.
5. List Starting Serial Number. All key heads are programmed sequentially. For example, if 100 keys are ordered with Starting Serial Number 1050, the first key head will be programmed to Serial Number 1050, followed by 1051, 1052, 1053, etc. Serial numbers are automatically laser etched on the key (see position C on diagram).
6. List Laser Die Serial Number. A custom dealer marking is required on key blanks. All custom dealer markings are laser etched on the right hand side of the key (See position A on diagram). A Laser Die may be ordered using the Laser Engraver Electronic Die Order Form, PK-120777. List "No Die" if cut keys are being ordered and no marking is requested.
7. If part of a masterkey system, masterkey registry information is automatically marked on the blade of the key (see position B on diagram).
8. Orders may be placed by phone (800-839-3157) or fax (800-421-6615) to Medeco Customer Service.

Hybrid 125 kHz Proximity Keys - Heads Only

Description	Part Number
Original/Biaxial	EA-300069-01-EL

6 pin KeyMark	KY-77663P-XX99
7 pin KeyMark	KY-77763P-XX99

NOTE: Stamping is required on all key blanks.

Hybrid 125 kHz Proximity Keys - Dimpled Blades

Description	Part Number
Original/Biaxial	KY-74563F-NMXX
KeyMark/Medeco3	KY-77663F-NMXX

NOTE: Stamping is optional on cut keys

Hybrid 13.56 MHz iClass 2k Bit Heads with - Heads Only

Description	Part Number
Original/Biaxial	EA-300086-01-EL
Medeco3/KeyMark	EA-300087-01-EL

Hybrid 13.56 MHz iClass 2k Bit Heads with - Cut Keys

Description	Part Number
5 pin Original/Biaxial	KY-74568K-XX99
6 pin Original/Biaxial	KY-74668K-XX99
5 pin Medeco3	KY-35568K-XX99
6 pin Medeco3	KY-35668K-XX99
6 pin KeyMark	KY-77668K-XX99
7 pin KeyMark	KY-77768K-XX99

NOTE: Stamping is optional on cut keys

Hybrid 13.56 MHz iClass 2k Bit Heads with - Key Blanks

Description	Part Number
5 pin Original/Biaxial	KY-74563K-XX99
6 pin Original/Biaxial	KY-74663K-XX99
5 pin Medeco3	KY-35563K-XX99
6 pin Medeco3	KY-35663K-XX99
6 pin KeyMark	KY-77663K-XX99
7 pin KeyMark	KY-77763K-XX99

NOTE: Stamping is required on all key blanks.

Hybrid 13.56 MHz iClass 2k Bit Heads with - Dimpled Blades

Description	Part Number
Original/Biaxial	KY-74563H-NMXX
KeyMark/Medeco ³	KY-77663H-NMXX

NOTE: Stamping is optional on cut keys

Hybrid 13.56 MHz iClass 16k Bit Heads with - Heads Only

Description	Part Number
Original/Biaxial	EA-300088-01-EL
Medeco ³ /KeyMark	EA-300089-01-EL

Hybrid 13.56 MHz iClass 16k Bit Heads with - Cut Keys

Description	Part Number
5 pin Original/Biaxial	KY-74568J-XX99
6 pin Original/Biaxial	KY-74668J-XX99

HIGH SECURITY LOCKS

ASSA ABLOY

Nexgen Electronic Locking System

ASSA ABLOY, the global leader in door opening solutions

medeco
HIGH SECURITY LOCKS
ASSA ABLOY

The NEXGEN system was developed to provide access control, audit capability and physical security in one self contained locking solution for industrial applications such as route management. The technology is currently available in a cam lock and a T-handle cylinder and has the ability to be used in a variety of different locks and applications. No hardwiring is required of the lock because it derives all of its power from the key, and installation is the equivalent of installing a mechanical cylinder. All NEXGEN

products have the ability to be linked together through your system to provide full integration. The NEXGEN system gives you the ability to program who gets into your equipment and when they get in. The system will also track all activities, including authorized openings and unauthorized attempts to open the lock. The NEXGEN lock is built to the same physical security standards as the Medeco mechanical line and provides strong resistance to all forms of physical attack, including pulling and drilling.

NEXGEN

Nexgen

FEATURES	
Controls access to your equipment and protects revenues in route management applications.	●
Improves collection efficiency by tracking all openings of the lock.	●
Strong resistance to physical attack.	●
No hardwiring allows for easy installation and saves valuable service time.	●
Electronic rekeying provides immediate response and reduced exposure to lost or stolen keys.	●
Power comes from the key and not the equipment.	●

Applications

Nexgen is used when the ability to control and track access is a vital component of security, primarily in route management type applications. T-handle cylinders can be used in vending machines, bill changes, token dispenser, kiosks, value-add terminals and more. Cam lock and removable plug lock applications can include computer enclosures, storage cabinets, safes, transit equipment and more.

Nexgen Technical Information

- ❖ Lock uses hardened steel inserts to defy drilling.
- ❖ A single key can access up to 11,000 locks.
- ❖ Each lock can store up to 2,000 audit events.
- ❖ Keys can be programmed to read up to 6,000 audit events from the locks.
- ❖ Key uses off-the-shelf batteries to provide power for up to 8,000 operations.
- ❖ Hardened Key tip is field replaceable.
- ❖ Breakaway plug face design prevents over-torquing in cam and t-handle applications.
- ❖ Software is network compatible.
- ❖ A basic NEXGEN system consists of a software Host Kit, Collector Keys, and locks.

Contact Medeco Customer Service or your Territory Manager for more information regarding specific applications that would benefit from the security and strength of NEXGEN.

Retrofit Cylinders

HIGH SECURITY LOCKS
ASSA ABLOY

RETROFIT CYLINDERS

UPGRADE YOUR EXISTING HARDWARE...

The easiest and most effective security enhancement you can make is to upgrade your existing hardware with Medeco premium high security retrofit cylinders. Regardless of how durable your door hardware is, if it can be compromised by use of an unauthorized key or by drilling a substandard cylinder, it has not protected anything. Medeco³ cylinders feature UL437 Listed physical strength components like the triple locking technology for ultimate pick resistance and solid brass construction with strategically placed hardened inserts to thwart drilling attacks.

One patent protected key operates both the BiLevel and the Medeco³ cylinders. Both high quality cylinders from Medeco allow you to install the level of security needed on each door. Medeco patent protected keys may also utilize a special Hybrid key head with proximity technology for even greater flexibility in securing a complete system.

KeyMark is the perfect security upgrade for Best[®]-style small format interchangeable core (SFIC) installations. In addition to SFIC cylinders, KeyMark is also available in many other styles of retrofit cylinders and can be keyed into a single system. KeyMark retrofit cylinders provide utility patented protection against the unauthorized duplication of keys.

Mortise & Rim Cylinders

FEATURES	MEDECO3	BILEVEL	KEYMARK
Utility patented key control provides protection from unauthorized duplication of keys	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●		
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●		
Hardened steel inserts in the cylinder face provide proven drill resistance	●		
Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance	●	●	
Solid nickel silver pins provide exceptional wear resistance			●
Retrofits into virtually any manufacturers' locksets cost effective improved security	●	●	●
High security and key control may be incorporated in a single system for cost effective system flexibility.	●	●	
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●
Hybrid proximity cylinders may be added to a system for mechanical security where needed and access control features in the same system.	●	●	●

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

KeyMark Patented Key Control

KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Electronic Access Control

Many of the cylinders in this section are also available with EAC. See the Electronic Section for more details.

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ ANSI / BHMA A156.30 Level A Certification assures patent protected key control and physical strength
- ❖ ANSI / BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks
- ❖ 5 and 6 Pin cylinders available
Solid brass construction

BiLevel® Technical Information:

- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks
- ❖ 5 and 6 Pin cylinders available
Solid brass construction

KeyMark® Technical Information:

- ❖ #6-32 pin chamber set screws provide ease of pinning and resist comb attacks
- ❖ 6 and 7 Pin cylinders available
Solid brass construction

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

How to Order:

- determine technology required (Medeco³ high security, BiLevel key control, or KeyMark key control)
- see charts for base part number for style and length of cylinder required
- include keyway (see page 6 for more information on keyway programs)
- include cylinder pinning required (keyed alike, keyed different, master keyed, sub-assembled)
- special cam, if required. (CT-Z01 is the standard cam if not specified for most mortise cylinders. The tailpiece for rim cylinders is standard and does not have to be specified)

Keyway/Technology Indicators in part numbers:

- = **Original**
- W** = **Biaxial**
- T** = **Medeco³**
- J** = **BiLevel**

HIGH SECURITY LOCKS

ASSA ABLOY

Lever, Knob, Deadbolt & Padlock Cylinders

FEATURES	MEDECO3	BILEVEL	KEYMARK
Utility patented key control provides protection from unauthorized duplication of keys	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●		
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●		
Hardened steel inserts in the cylinder face and hardened steel driver pins provide proven drill resistance	●		
Solid brass construction provides high quality and long cylinder life	●	●	●
Nickel plated pins designed to provide exceptional wear resistance	●	●	
Retrofits into virtually any manufacturers' locksets with improved security	●	●	●
High security and key control may be incorporated in a single system for cost effective system flexibility.	●	●	
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

KeyMark Patented Key Control

KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Electronic Access Control

Many of the cylinders in this section are also available with EAC. See the Electronic Section for more details.

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ ANSI/BHMA A156.30 Level A Certification assures patent protected key control and physical strength
- ❖ ANSI/BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- ❖ 5 and 6 Pin cylinders available
- ❖ Cylinders are available for most ANSI/BHMA Grade 1 and Grade 2 cylindrical locksets and deadbolts
- ❖ Nickel plated bottom pins and hardened steel top pins

BiLevel Technical Information:

- ❖ 5 and 6 Pin cylinders available
- ❖ Cylinders are available for most ANSI/BHMA Grade 1 and Grade 2 cylindrical locksets and deadbolts
- ❖ Nickel plated bottom pins

KeyMark Technical Information:

- ❖ #6-32 pin chamber set screws provide ease of pinning and resist comb attacks
- ❖ 6 Pin cylinders available
- ❖ Cylinders are available for most ANSI/BHMA Grade 1 and Grade 2 cylindrical locksets and deadbolts
- ❖ Solid nickel silver pins

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

How to Order:

- determine technology required (Medeco³ high security, BiLevel key control, or KeyMark key control)
- see charts for base part number for style of cylinder required
- include keyway (see page 6 for more information on keyway programs)
include cylinder pinning required (keyed alike, keyed different, master keyed, sub-assembled)

Keyway/Technology Indicators in part numbers:

Cylinder for PDQ®		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for PDQ® "SX" Series	20*20149	Available	Available	Available
	6 Pin Cylinder for PDQ® "SV" Knob / Lever	20*3000	Available	Available	Available
	6 Pin cylinder for PDQ® Lever "SP" & "ST" Series, GT115, GT116, GT120, GT128, GT135, GT137, GT141, GT148, GT150, GT155, GT165, GT182,	20*200V2	Available	Available	Available

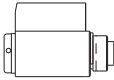

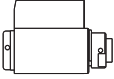

Cylinder for Sargent®		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder Package for Sargent® 6 & 10 Line, Levers 7L & 8L includes: CT-Y70, CT-Y73, CP-160321	20*201A1	Available	Available	Available
	5 Pin Cylinder for Sargent® 6 Line Includes: CT-Y35, CT-Y37, CT-Y47, CT-Y55	20*8007	Available	Available	Available
	6 Pin Cylinder for Sargent® 6 Line (Except for B Knob) & 6500 Lever	20*20170	Available	Available	Available

Cylinder for Sargent®		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin cylinder for Sargent® 6 Line (B Knob Only) Original Cylinder Spacer must be replaced with Medeco Cylinder Spacer CP-160321 (Included)	20*20173	Available	Available	Available
	6 Pin Cylinder for Sargent® 10 Line, Levers 7L & 8L	20*20349	Available	Available	Available
	6 Pin Cylinder for Sargent® 7600 Integra®	20*8005	Available	Available	Available
	6 Pin Cylinder for Sargent® 7, 8, 9 Line (Excluding levers 7L, 8L, 9L) Includes: CT-Y35, CT-Y37, CT-Y17 & CT-Y45	20*8006	Available	Available	Available
	6 Pin Cylinder for Sargent® 6, 7, & 10 line, 6500 Series (Not Available in Original Design) Includes: CT-Y35, CT-Y37, CT-Y47 & CT-Y55	20*80147	Available	Available	Available
	6 Pin Cylinder for Sargent® 11 Line (Not Available in Original Design)	20*80148	Available	Available	Not Available
	6 Pin Cylinder for Sargent® 11 Line	20*50900	Not Available	Not Available	Available

Cylinder for Schlage		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Knob Cylinder Assembly for Schlage® & Arrow® (Except Arrow "H" & "S" Series) Includes: CT-Y49, CT-Y52, CT-Y53, CT-Y70, CT-Y73, CT-Y74, CP-160321	20*200H1	Available	Available	Available
	6 Pin Cylinder Package for Schlage® "A", "AL", "C", "D", "ND", & Olympiad® Lever includes: CT-Y49, CT-Y52, CT-Y53, CT-Y73, CT-Y74 (Use CT-Y73 for thick doors)	20*200S1	Available	Available	Available
	5 Pin Knob Cylinder for Schlage® "F" Series Plymouth & Ball Knob	20*00400	Available	Available	Available
	5 Pin Knob Cylinder for Schlage® "A" Series (Ply Only)	20*0700	Available	Available	Available

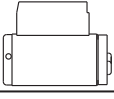

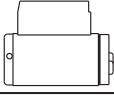

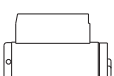

Cylinder for Schlage	Part Number	Medeco3	BiLevel	KeyMark
 5 Pin Knob Cylinder for Schlage® "A" Series (Except Ply)	20*0701	Available	Available	Available
 6 Pin Knob Cylinder for Schlage® "G" Series	20*00928	Available	Available	Available
 6 Pin Lazy Motion Knob Cylinder for Schlage® "B", "E", and F160 includes: CT-F34, CT-F35, CT-F36, CT-F37, CT-F38	20*00954	Available	Available	Available
 6 Pin Knob Cylinder for Schlage® "ND" & "AL" Series Grade 1 Lever	20*20073	Available	Available	Available
 6 Pin Cylinder for Schlage® "A", "AL", & "D", Series Olympiad® Lever (Use CT-Y73, for "AL" thick doors)	20*20049	Available	Available	Available
 6 Pin Cylinder for Schlage® "C, D" Series (Ply Only)	20*20051	Available	Available	Available
 6 Pin Cylinder for Schlage® "C", & "D" Series Heavy Duty Knobs Ball, Globe & Sphere Designs Only	20*20052	Available	Available	Available
 6 Pin Cylinder for Schlage® "A" Series (Orbit® Only)	20*20053	Available	Available	Available
 5 Pin Cylinder for Schlage® "F" Series Lever (mfg. after 2002)	20*01700	Available	Available	Not Available
 6 Pin Cylinder for Schlage® "S" Series Lever	20*20097	Available	Available	Available
 5 Pin Cylinder for Schlage® "F" Series Lever (Manufactured Prior to 2004)	20*01400	Available	Available	Available
 6 Pin Cylinder for Schlage® "F" Series Orbit Design Only (Manufactured Prior to 2004)	20*00700	Available	Available	Available

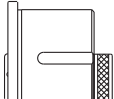

Cylinder for Taco®	Part Number	Medeco3	BiLevel	KeyMark
 6 Pin Cylinder TACO® LXV Lever Lockset	20*20078	Available	Available	Available

Cylinder for Yale®		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Knob Cylinder for Yale® Knobs 5300, 5400, 6100, 6200	20*0500	Available	Available	Available
	6 Pin Knob Cylinder for Yale® 5300LN, 5400LN	20*0503	Available	Available	Available

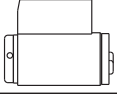

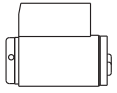

Deadbolt Cylinders

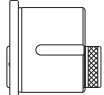

Cylinder for Arrow® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Cylinder for Arrow® JL Series Deadbolt	10*65140	Available	Available	Available
	5 Pin Cylinder for Arrow® “D” & “E” Series Single Cylinder Deadbolt includes CT-F34-CT-F38	20*0801	Available	Available	Available
	5 Pin Lazy Motion for Arrow® E62 Series Deadbolt	20*00554	Available	Available	Available
	5 Pin Cylinder for Arrow® “D” & “E” Series Double Cylinder Deadbolt	20*00831	Available	Available	Available
	6 Pin Cylinder for Arrow® “D” & “E” Series Single Cylinder Deadbolt	20*0901	Available	Available	Available
	6 Pin Cylinder for Arrow® “D” & “E” Series Double Cylinder Deadbolt	20*00931	Available	Available	Available

Cylinder for Baldwin® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Rim Type Lazy Motion Single Cylinder, Outside Only 5305, 5315, 5320, 5345, 5350, 5355, 5360, 5370, 5375, & 5380 Handlesets, 8031, 8041, 8213, 8231 & 8241 Deadbolts	10*75127	Available	Available	Available

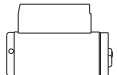

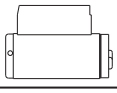

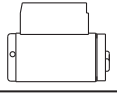

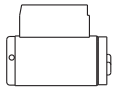

Cylinder for Corbin Russwin® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for Corbin Russwin® DL2100, DL3100 Deadbolt”	20*51027	Available	Available	Available

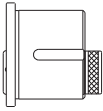

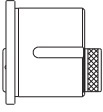

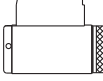

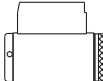

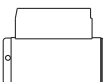

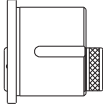

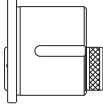

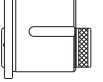

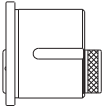

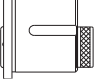

Cylinder for Emtek® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Rim Lazy Motion Rim Type Cylinder to fit Emtek® Handleset & Deadbolt Outside Cylinder	10*65140	Available	Available	Not Available
	5 Pin Rim Lazy Motion Rim Type Cylinder to fit Inside Cylinder	10*65244	Available	Available	Not Available

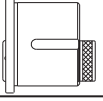

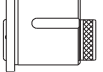

Cylinder for Falcon® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for Falcon® Single Cylinder Deadbolt Lock (New Style)	20*0903	Available	Available	Available
	5 Pin Cylinder for Falcon® Single Cylinder Deadbolt Lock (Old Style)	20*6005	Available	Available	Available
	5 Pin Cylinder for Falcon® Double Cylinder Deadbolt Lock (Old Style)	20*6100	Available	Available	Available

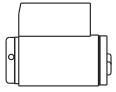

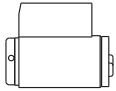

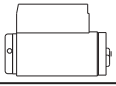

Cylinder for Kwikset®		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Lazy Motion Rim Type for Kwikset® 800, 510 (Sonoma Trim), 980, and 970 Series (All Single Cylinder Only) & Ultramax	10*12040	Available	Available	Not Available

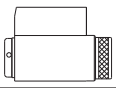

Cylinder for PDQ® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for PDQ® "KV" Series Deadbolt	20*0903	Available	Available	Available

Cylinder for Sargent® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for Sargent® 460 & 470 Single Cylinder Deadbolt Lock	20*0901	Available	Available	Available
	6 Pin Cylinder for Sargent® 460 & 470 Double Cylinder Deadbolt Lock	20*0902	Available	Available	Available
	5 Pin Cylinder for Sargent® 460 and 470 Series Single Cylinder Deadbolt	20*0801	Available	Available	Available
	5 Pin Cylinder for Sargent® 460 and 470 Series Double Cylinder Deadbolt	20*0802	Available	Available	Available

Cylinder for Schlage® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Lazy Motion Schlage® Inside Cylinder for B200 / B400 Series Deadbolt Lock (Rim Type Cylinder) includes CT-F34-CT-F38	10*65254	Available	Available	Available
	5 Pin Lazy Motion Schlage® Outside Cylinder for "E", "H", B200, B400 Series Deadbolt (Rim Type Cylinder) includes CT-F34-CT-F38	10*65154	Available	Available	Available
	5 Pin Lazy Motion Cylinder for Schlage® "B" Series Deadbolt Lock (less tailpiece)	20*00800	Available	Available	Not Available
	5 Pin Knob Cylinder for Schlage® "B", "E", and F160 Series Deadbolt Locks Includes: CT-F34, CT-F38	20*00854	Available	Available	Not Available
	6 Pin Lazy Motion Cylinder for deadbolt Schlage® "B" Series (Old Style)	20*0904	Available	Available	Available
	6 Pin Lazy Motion Cylinder for Schlage® "B" Series Deadbolt (less tailpiece) except B662 after 2001	20*00900	Available	Available	Available
	6 Pin Lazy Motion Schlage® Outside Cylinder for "E", "H", B200, B400 Series Deadbolt Lock (Rim Type Cylinder) includes: CT-F34-CT-F38	10*66154	Available	Available	Available
	6 Pin Lazy Motion Schlage® Inside Cylinder for B200 and B400 Series Deadbolt Lock (Rim Type Cylinder) includes: CT-F34-CT-F38	10*66254	Available	Available	Available
	6 Pin Inside Cylinder for Segal Double Cylinder Dropbolt Made After 2002	10*0805	Available	Available	Available
	7 Pin Lazy Motion Schlage® Inside Cylinder for B200 and B400 Series Deadbolt Lock (Rim Type Cylinder) includes: CT-F34-CT-F38	10K66254	Available	Available	Available
	7 Pin Inside Cylinder for Segal Double Cylinder Dropbolt Made After 2002	10K0805	Available	Available	Available

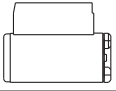

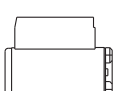

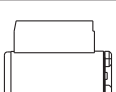

Cylinder for Weiser® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Lazy Motion Outside Cylinder for Weiser® Prestige Series Deadbolt and Entryset / Handleset	10*0602	Available	Available	Available
	6 Pin Lazy Motion Outside Cylinder for Weiser® Prestige Entryset/Handleset	10*0702	Available	Available	Available

Cylinder for Weiser® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	5 Pin Cylinder for Weiser® Single Cylinder Deadbolt	20*6005	Available	Available	Available
	5 Pin Cylinder for Weiser® Double Cylinder Deadbolt	20*6100	Available	Available	Available
	5 Pin Cylinder for Weiser® 4000, 4200 Single Cylinder Deadbolt	20*7001	Available	Available	Available
	6 Pin Cylinder for Weiser® Single Cylinder Deadbolt, including powerbolt	20*0903	Available	Available	Available

Cylinder for Yale® Deadbolt		Part Number	Medeco3	BiLevel	KeyMark
	6 Pin Cylinder for Yale® 3300, 3500 & 3600 Series Deadbolt Locks	20*51027	Available	Available	Available

Padlock Cylinders

Interchangeable Core

FEATURES	MEDECO3	BILEVEL	KEYMARK
Utility patented key control provides protection from unauthorized duplication of keys	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●		
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●		
Hardened steel inserts in the cylinder face and hardened steel driver pins provide proven drill resistance	●		
Solid brass construction provides high quality and long cylinder life	●	●	●
Nickel plated pins designed to provide exceptional wear resistance	●	●	
Retrofits into virtually any manufacturers' locksets with a wide selection of interchangeable cams to fit various manufacturers' mortise series hardware for cost effective improved security	●	●	●
Ability to key with non-interchangeable core cylinders, including rim and mortise, knob style for cost effective system flexibility	●		●
High security and key control may be incorporated in a single system for cost effective system flexibility.	●	●	
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

KeyMark Patented Key Control

KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Electronic Access Control

Many of the cylinders in this section are also available with EAC. See the Electronic Section for more details.

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ ANSI/BHMA A156.30 Level A Certification assures patent protected key control and physical strength
- ❖ ANSI/BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- ❖ 32 Series LFIC are available in 5 and 6 Pin versions
- ❖ 31 Series LFIC are available in 6 and 7 Pin versions
- ❖ Nickel plated bottom pins and hardened stainless top pins

BiLevel Technical Information:

- ❖ 32 Series LFIC are available in 5 and 6 Pin versions
- ❖ 31 Series LFIC are available in 6 and 7 Pin versions
- ❖ Nickel plated bottom pins

KeyMark Technical Information:

- ❖ 6 and 7 Pin cylinders available
- ❖ Solid nickel silver pins

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

How to Order:

What's the base part number and technology?

What's the finish?

What keyway?

How do you want it pinned?

What cam/tailpiece do you need?

- determine technology required (Medeco³ high security, BiLevel key control, or KeyMark key control)
- see charts for base part number for style of cylinder required
- include keyway (see page 6 for more information on keyway programs)
- include cylinder pinning required (keyed alike, keyed different, master keyed, sub-assembled)
- specify cam, if required. (CT-Z01 is the standard cam if not specified for most mortise cylinders. The tailpiece for rim or knob cylinders is standard and does not have to be specified)

Keyway/Technology Indicators in part numbers:

I/C Plug Retainer Washer (0.512" Diameter x .145" Thick) for Converting 7 Pin SFIC Housing to Use a 6 Pin Core. Also required when using 6 Pin I/C and SFIC Series padlock bodies	CP-160420

International Cylinders

FEATURES	MEDECO3
Utility patented key control provides protection from unauthorized duplication of keys in most countries	●
Superior master keying capability to accommodate systems of virtually any size	●
Other certifications provide validation of high security from recognized, independent testing laboratories	●
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●
Hardened steel inserts in the cylinder face provide proven drill resistance	●
Solid brass construction provides high quality and long cylinder life	●
Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance	●
European Profile Cylinders retrofit into virtually any manufacturers' locksets equivalent to DIN Standards	●

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ Pin chamber set screws provide ease of rekeying and resist comb attacks
- ❖ 5 and 6 Pin cylinders available

Certification:

- ❖ SKG***Netherlands; Israeli Standards, I.S. 9950; Swedish Standards SS3522; EN1303; DIN18254

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

Medeco³ Premium High Security

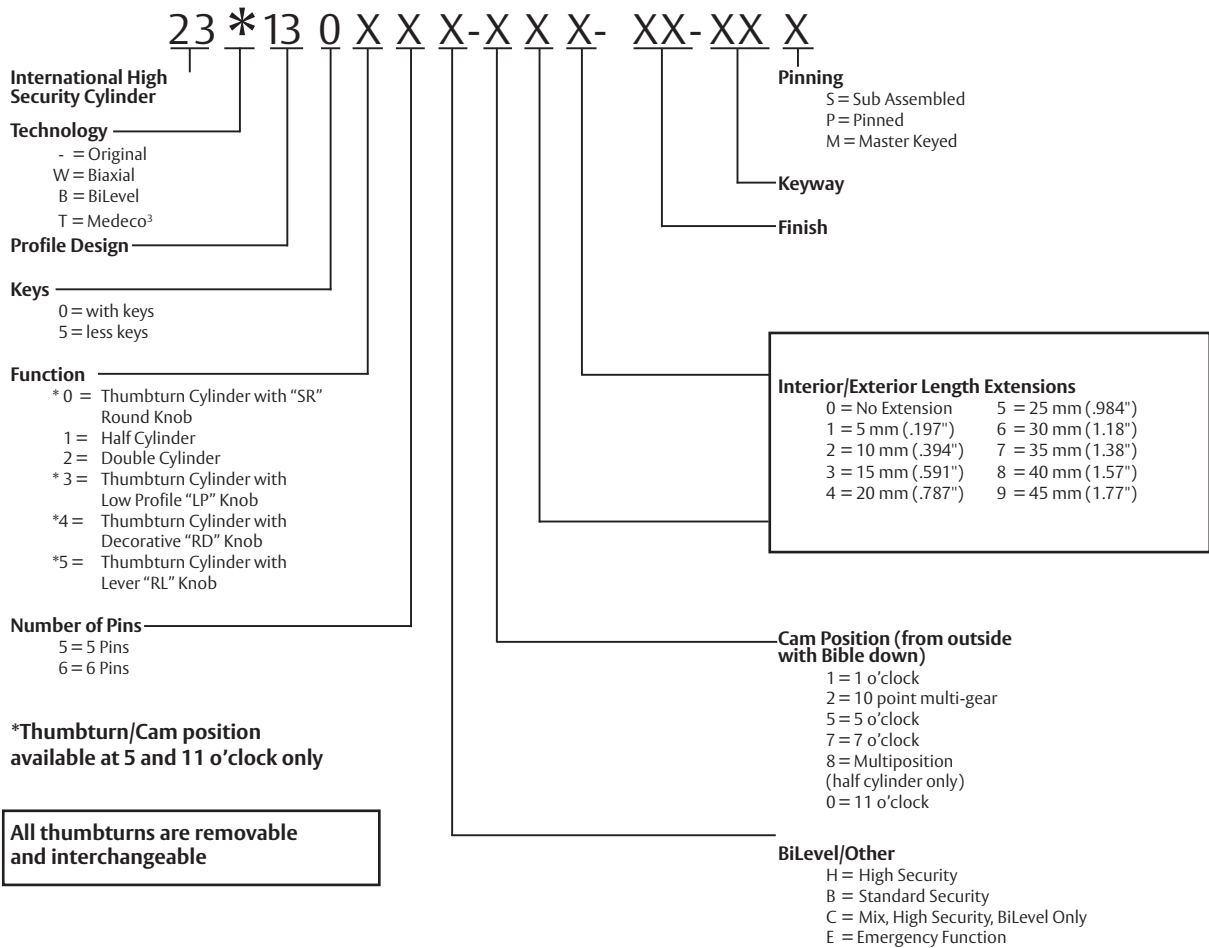

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

How To Order International Cylinders - Euro-Profile

Here are the 4 things you need to know:

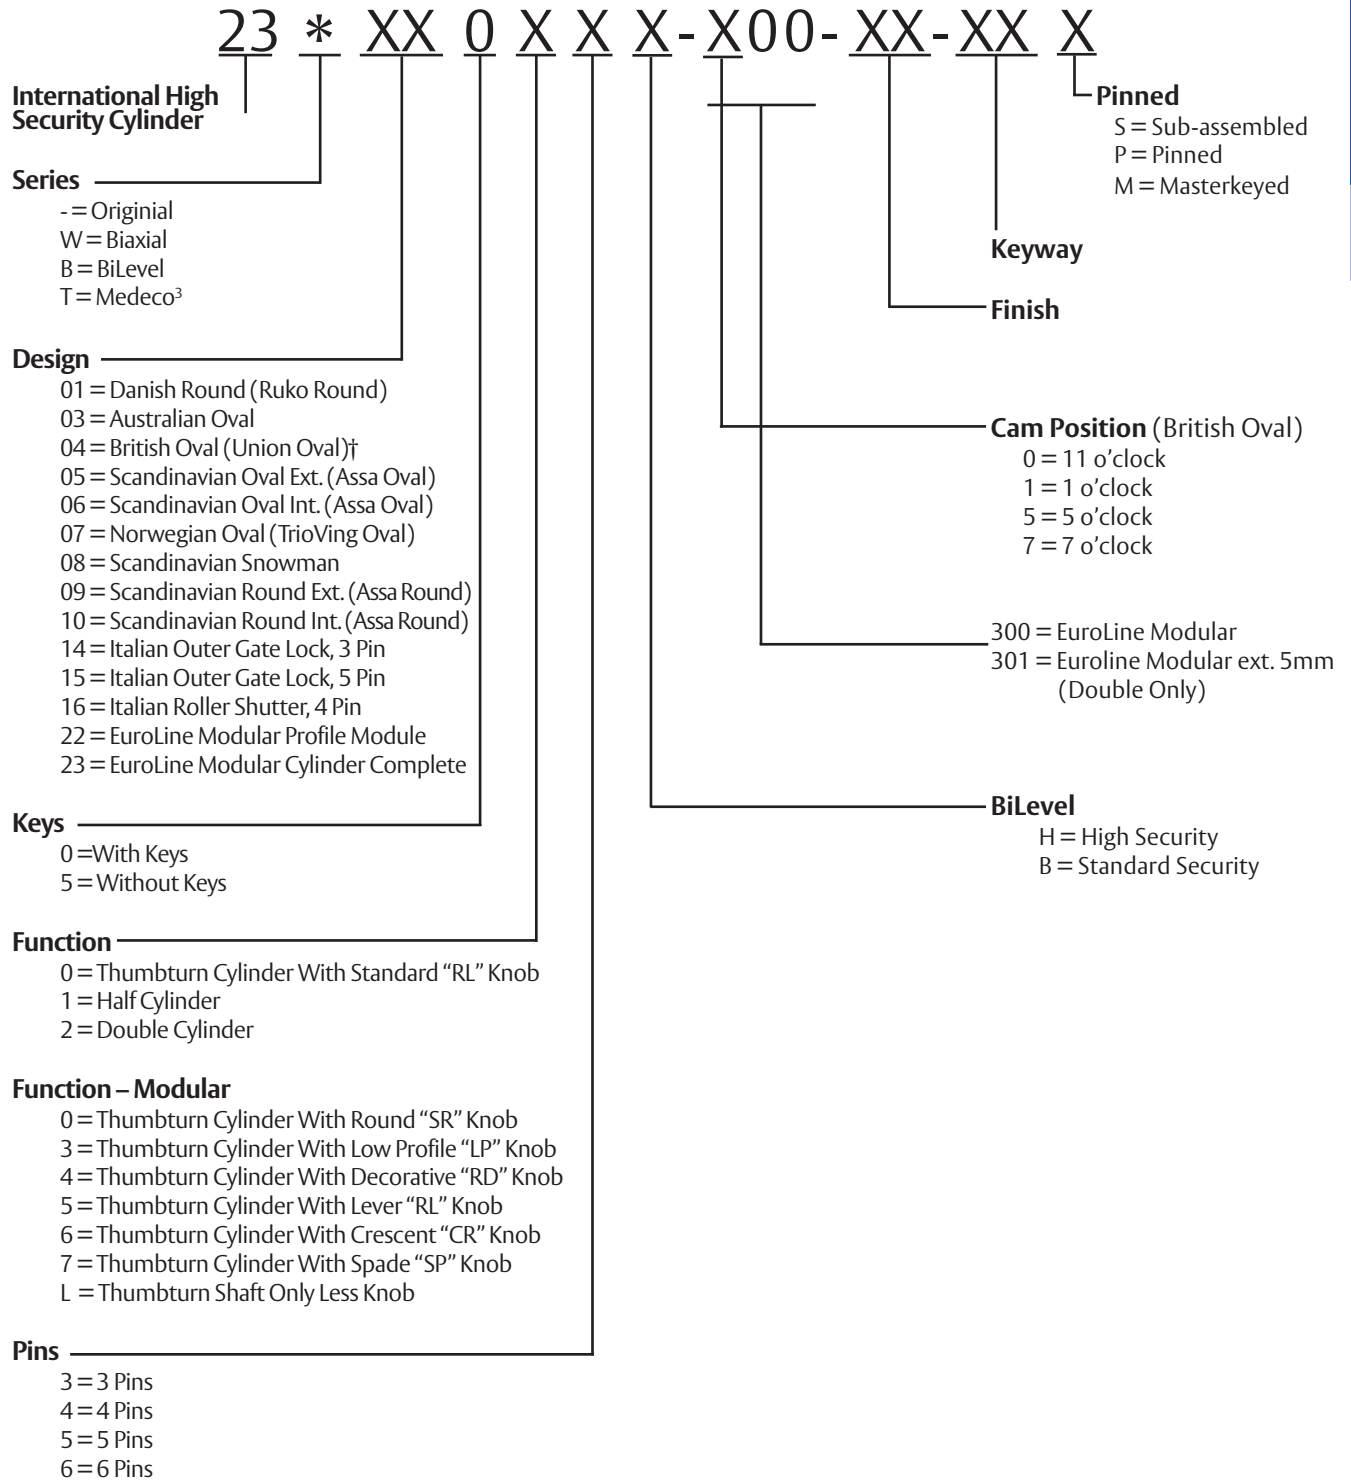

1. What's the base part number and technology?
 - 5 or 6 Pin
 - Thumbturn, double cylinder, or half cylinder
 - Cam position, length extensions (longer extensions available by special order)
2. What's the finish?
3. What keyway?
4. How do you want it pinned?

BUILD A BASE PART

How To Order Other International Cylinders

Complete part numbers are required for all orders. To determine the correct part number, fill in the "X's" in sequential order.

† Union Oval Thumbturn Position at 5 and 11 o'clock only

EuroLine Modular Profile Cylinder System

The Medeco EuroLine product family is a modular cylinder system that allows the custom building of profile cylinders to meet the unique needs of the application. This system of modular cylinders, thumbturns and components are assembled to fit multiple lock functions, door thickness, and trim designs.

All double cylinders are made up of:

Cylinder Modules (2)	Groove pins
Outer and inner plug extensions	Cam
Brass shell extension	Connecting bar & bar filler

All single cylinder with thumbturn are made up of:

Cylinder Module (1) & Thumbturn Module (1)	Connecting bar & bar filler
Outer and inner plug extensions	Thumbturn actuator cartridge & cartridge extension
Brass shell extensions	Thumbturn, thumbturn shaft & set screw
Groove pins	
Cam

Auxiliary Locks

ASSA ABLOY, the global leader in door opening solutions

medeco
HIGH SECURITY LOCKS
ASSA ABLOY

AUXILIARY LOCKS

Medeco offers a complete line of high quality auxiliary locks engineered to provide superior physical protection and key control to fit your security needs. This includes deadbolts, dropbolts, residential locksets and padlocks.

Medeco locks are designed with specific features that resist the techniques that thieves use to gain entry and include the Medeco patented technologies to assure keys aren't copied without authorization.

The security of a Medeco lock ingrates flawlessly into any home or business with traditional commercial style or with a more refined residential sophistication. The broad range of finishes offer a seamless upgrade to existing hardware.

Deadbolts

FEATURES	MEDECO3	BILEVEL	KEYMARK
UL Listed for use on fire doors having a rating up to three hours	●	●	●
ANSI/BHMA 165.5 2001 Grade 1 Certification for auxiliary locks and associated products	●		
ANSI/BHMA A156.30 Level A Certification on the cylinder assures patent protected key control and physical strength	●		
Can be incorporated into existing master key systems	●	●	●
Security features to protect against drill, wrench, ice pick, kick-in, hammer, bumping and prying attacks	●	●	
Solid brass construction provides high quality and long cylinder life	●	●	●
Deadbolt is designed to accommodate both mortise and drive-in face applications for greater flexibility and ease of installation.	●	●	●
Large thumbturn provides ease of use for physically challenged individuals	●	●	●
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●
Double cylinder captive thumbturn safety option available	●	●	

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or covert attack.

KeyMark Patented Key Control

KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Electronic Access Control

Many of the locks in this section are also available with EAC. See the Electronic Section for more details.

Deadbolt Technical Information:

- ❖ Bolts are available in two backset lengths, 2 3/4" and 2 3/8". Bolt faces are available in 1 1/8" x 2 1/4" or 1" x 2 1/4".
- ❖ A drive-in bolt is available in both backsets for metal installations.
- ❖ Strike is 2 3/4" x 1 1/8" and comes with a strike reinforcement. Four screws are provided for maximum strength against kick-in attacks.
- ❖ 1 3/4" to 2 1/2" thick standard for all functions except Double Cylinder Captive Thumbturn. Double Cylinder Captive Thumbturn 1 3/4" to 2" standard, 2 1/4" to 2 1/2" to order. For 1 3/8" thick doors adaptor rings, sold separately, are required.
- ❖ Fits into standard door prepped with 2 1/8" cross bore and 1" edge bore holes

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ ANSI / BHMA A156.30 Level A Certification assures patent protected key control and physical strength

- ❖ ANSI / BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks

BiLevel® Technical Information:

- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks

KeyMark® Technical Information:

- ❖ #6-32 pin chamber set screws provide ease of pinning and resist comb attacks

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

Here are the 5 things you need to know:

1. Backset needed
2. Single, double, captive double, or classroom cylinder?
3. What finish and collar style?
4. What keyway?
5. How do you want it pinned?

Keyway/Technology Indicators in part numbers:

- = Original
- W = Biaxial
- T = Medeco³
- J = BiLevel
- K = KeyMark

Deadbolt Lock finish:

- 05 - Bright brass
- 09 - Antique brass
- 12 - Satin bronze
- 10- Satin brass blackened
- 13 - Dark bronze/oil rubbed
- 22 - Black
- 19 - Satin nickel
- 20 - Antique nickel
- 25 - Bright chrome
- 26 - Satin chrome

Thumbturn Tailpiece for Maxum® Deadbolt Lock for doors 1 3/4" - 2 1/2" Thick	CT-F41
Tailpiece for Maxum® Deadbolt outside cylinder, 1.430" length for doors over 1 3/4" thick	CT-Y61
Thumbturn Tailpiece for Maxum® Deadbolt lock for 2 1/4" - 2 1/2" thick door (Includes: CP-281350 & CT-Y63)	CT-F42
Thumbturn Tailpiece for Classroom Function Maxum® Deadbolt lock, 1 3/4" - 2" thick doors	CT-F43
Thumbturn Tailpiece for Classroom Function Maxum® Deadbolt lock for doors 2 1/4" - 2 1/2" thick	CT-F44
Tailpiece for Maxum® Deadbolt lock, outside cylinder, .532" length, for doors up to 1 3/4" thick	CT-Y60
Tailpiece for Maxum® Deadbolts, outside cylinder, for doors up to 1 3/4" (made 2007 and after)	CT-V49
Tailpiece for Maxum® Deadbolt outside cylinder for thick doors (made 2007 and after)	CT-V48

Residential Locksets

FEATURES	MEDECO3	BILEVEL
Control over who can copy a key – Cylinders with patented key control	●	●
Enhanced home value – Well known brand adds value to any home	●	●
Enhanced “curb appeal” – Beautifully designed hardware is a complement to any style entrance	●	●
Peace of mind – High quality locks protect you, your loved ones, and your possessions	●	●
Solid brass construction for strength and durability.	●	●
Triple locking action makes lock virtually bump and pickproof	●	●
Hardened steel inserts provide resistance to drilling	●	●

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco³® Technical Information:

- ❖ UL437 Listing assures superior pick and drill resistance
- ❖ ANSI / BHMA A156.30 Level A Certification assures patent protected key control and physical strength
- ❖ ANSI / BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks

BiLevel® Technical Information:

- ❖ #8-32 pin chamber set screws provide ease of rekeying and resist comb attacks

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

Here are the 5 things you need to know:

1. Backset needed
2. Single, double, or captive double cylinder?
3. What finish and design style?
4. What keyway?
5. How do you want it pinned?

Keyway/Technology Indicators in part numbers:

- = **Original**
- W** = **Biaxial**
- T** = **Medeco³**
- J** = **BiLevel**

Deadbolt Lock finish:

- 05 - Bright brass
- 09 - Antique brass
- 12 - Satin bronze
- 10- Satin brass blackened
- 13 - Dark bronze/oil rubbed
- 22 - Black
- 19 - Satin nickel
- 20 - Antique nickel
- 25 - Bright chrome
- 26 - Satin chrome

Electronic Access Control

Many of the locks in this section are also available with EAC. See the Electronic Section for more details.

Locksets are sold without cylinders, but cylinders in all of the above technologies are available.

Broadway – BBR

Sierra – SR

Certification

All Medeco 19 Series locks are UL and c.UL listed for use on 3 hour, A label or lesser doors and are certified to conform to and exceed the requirements of ANSI/BHMA A156.2, Series 4000, Grade 1.

- ANSI A117.1 Accessibility Code
- California State Reference Code for levers returning to within 1/2" of door surface.

General Specifications

Housing - Cold rolled steel, with zinc dichromated finish for rust resistance. Latch retractor is precision cast steel. Extra long bearing sleeve offers added support for interlocking tubes and provides for extra lever rigidity. Requires standard 2-1/8" bore through door.

Thru-Bolts - Patented flexible adaptor, an eight sided nickel steel alloy mechanism allows for universal thru-bolt location according to door preparation. The flexible mounting is accomplished without manually removing screw posts from rose insert. The flexible adaptor also engages directly with springs, which will virtually eliminate lever sag.

Freewheeling Lever - Latch retraction mechanism disengages from lever handle when handle is locked. Built-in stops in the rose insert prevent lever from traveling beyond approximately 57 degrees. Heavy spring in rose insert ensures that lever handle returns to horizontal position.

Latch - Brass with 1/2" throw standard. 3/4" throw deadlocking firelatch is available for pairs of doors. (19 Series) latch housing is steel, zinc dichromate finish for corrosion resistance. 1" bore in edge of door is required.

Lever Finishes:

- 05 = Bright Brass, clear coated (BHMA 605/US3)
- 06 = Satin Brass, clear coated (BHMA 606/US4)
- 12 = Satin Bronze, clear coated (BHMA 612/US10)
- 13 = Satin Bronze, oxidized and oil rubbed (BHMA 613/US10B)
- 25 = Bright Chrome Plate (BHMA 625/US26)
- 26 = Satin Chrome Plate (BHMA 626/US26D)

Latch Front - Brass, bronze or stainless steel. 2-1/4" x 1-1/8" beveled, 1/8" in 2".

Exposed Trim - Levers are pressure cast zinc. Streamline rose scalp of brass or bronze complement other series of lever locks.

Rose Insert - Contain coil springs, which are permanent assemblies within rose inserts. The inside insert has graduating steps in two locations to prevent the rose scalp from loosening. A "catch" on the outside insert prevents rose scalp from working itself loose during installation.

Strike - Brass, bronze or stainless steel. ANSI A115.2, 4-7/8" x 1-1/4" curved lip strike. Optional 2-3/4" x 1-1/8" strike available. All strikes have 1-1/4" lip to center dimension.

Backset - 2-3/4" standard, 3-3/4" and 5" available. (19 Series) 2 3/4" standard, 3 1/4" available (18 Series)

Door Thickness - (19 Series) 1-3/4" to 2". (18 Series) 1 3/8" to 1 3/4".

Handing - Non-handed. Levers operate bi-directionally.

Packaging - 1 per box, 6 per carton.

Warranty - Limited three year warranty.

18 & 19 Series Functions	Function # KIL I/C		ANSI #	Lever
Entrance: Latchbolt operated by lever either side except when outside lever is locked by turn-button inside. When outside lever is locked, latchbolt operated by key outside or turning inside button will cause outside lever to remain locked. Button will then need to be manually rotated to unlock outside lever.	53	33	F109	
Classroom: Latchbolt operated by lever either side except when key outside locks outside lever. Inside lever always free. Key outside locks/unlocks outside lever only.	54	34	F84	
Storeroom: Latchbolt operated by key in outside lever or by inside lever. Outside lever always inoperable.	55	35	F86	
Public Entrance: Latchbolt operated by lever from either side except when key from inside lever locks outside lever. When outside lever is locked, latchbolt retracted by key in outside lever or by turning inside lever.	56	36	F88	
Asylum: Latchbolt operated by key in either lever. Both levers always inoperable.	59	39	F87	
Service Station: Latchbolt operated by lever either side except when slotted pushbutton inside locks outside lever. Outside lever unlocked by turning inside lever or closing door. When slotted button is pushed and turned, outside lever is inoperable and is unlocked either by key outside or turning inside lever. Inside lever always free.	5D	3D	F92	
Communicating: Latchbolt operated by lever either side. Key in either lever locks its own lever independently. Not recommended for use in rooms with no entrance.	5B	3B	F80	
Exit: Latchbolt by inside lever only. Blank rose only outside.	5G		F111	
Privacy: Latchbolt operated by lever either side except when inside pushbutton locks outside lever. Unlocked by turning inside lever, using emergency key outside or closing door.	31		F76	
Passage: Latchbolt operated by lever either side.	32		F75	
Exterior: Latchbolt operated by lever from either side except when outside lever is locked by pushbutton inside. Outside lever remains locked until unlocked by key or turning inside lever.	5C	3C	F82	
Exit: Latchbolt operated by inside lever only. Outside lever always inoperable.	5E		F89	
Classroom Intruder: Latchbolt operated by lever from either side. Key either inside or outside locks or unlocks outside lever. Inside lever always operates latchbolt. (19 Series Only)	5R	3R	F110	
Dormitory: Latch operated by lever either side except when outside lever is locked by key outside or by pushbutton inside. Key outside locks or unlocks outside lever. Unlocking by turning inside lever, closing door or using key outside. (19 Series Only)	5H	3H	F90	
Single Dummy Trim: Rigid trim for one side of door only. Used as pull or to match active trim. (18 Series Only)	30			
Full Dummy Trim: Rigid trim for both sides of door. Used as pulls or to match active trim. (18 Series Only)	3A

Locksets are sold without cylinders, but cylinders in all of the above technologies are available.

Classic

Modern

Grade 1 Lockset Technical Information:

- ANSI A156.2, Series 4000, Grade 1
- UL Listed for use on fire doors having a rating up to and including 3 hours.

General Specifications

Latch - Backset: 2 3/4"; Front: 1 1/8" x 2 1/4";
Throw: 9/16"

Knobs - 2 1/4" diameter with .062" steel reinforcement

Roses - Adjustable both sides. Steel reinforced 2 3/4" diameter

Strike - 4 7/8" ANSI curved lip

Door Thickness - 1 5/8" to 2"

Lock Mechanism - Cast stainless steel retractor with bronze roller bearings

Grade 2 Lockset Technical Information:

- ANSI A156.2, Series 4000, Grade 2
- UL Listed for use on fire doors having a rating up to and including 3 hours.

General Specifications

Latch - Backset: 2 3/8"; Front: 1" x 2 1/4"
Throw: 1/2"

Knobs - 2 1/4" diameter with .047" steel reinforcement

Roses - Adjustable both sides. Steel reinforced 2 3/4" diameter

Strike - 2 3/4" T-Strike, curved lip with dust box

Door Thickness - 1 3/8" to 2"

Lock Mechanism - Cast stainless steel retractor with bronze roller bearings

Knob Finishes:

- 05 = Bright Brass, clear coated (BHMA 605/US3)
- 12 = Satin Bronze, clear coated (BHMA 612/US10)
- 13 = Satin Bronze, oxidized and oil rubbed (BHMA 613/US10B)
- 30 = Satin Stainless Steel (BHMA 630/US32D)
- 29 = Bright Stainless Steel (BHMA 629/US32) **GRADE 2 ONLY**

24 or 25 - XX X X X X-0X X - XX

Series Prefix

- 24 = 24 Series Medium Duty Knob Lockset
- 25 = 25 Series Heavy Duty Knob Lockset

Cylinder Type

- Interchangeable Core Knob & Key-In-Knob Lockset
- Locksets are sold less cylinder

Function

Interchangeable Core Knob

- 03 = Entrance (ANSI F109)
- 04 = Classroom (ANSI F84)
- 05 = Storeroom (ANSI F86)
- 06 = Public Entrance (ANSI F88)
- 09 = Asylum (ANSI F87)
- 0B = Communicating (ANSI F80)
- 0F = Communicating (ANSI F113)
- 0H = Dormitory (ANSI F90) (25 Series Only)

Key-In-Lever Lockset

- 01 = Privacy (ANSI F76)
- 02 = Passage (ANSI F75)
- 10 = Dummy Trim (single)
- 23 = Entrance (ANSI F109)
- 24 = Classroom (ANSI F84)
- 25 = Storeroom (ANSI F86)
- 26 = Public Entrance (ANSI F88)
- 29 = Asylum (ANSI F87)
- 0A = Dummy Trim (double)
- 2B = Communicating (ANSI F80)
- 2C = Exit (ANSI F83)
- 2D = Patio (ANSI F87)
- 2E = Exit (ANSI F89)
- 2F = Communicating (ANSI F113)
- 2G = Exit
- 2H = Dormitory (ANSI F90) (25 Series Only)

Trim

Interchangeable Core Knob

- 1 = Classic, for Medeco 32 Series I/C
- 2 = Modern, for Medeco 32 Series I/C
- 3 = Classic with 3 1/8" diameter rose, for Medeco 32 Series I/C
- 4 = Modern with 3 1/8" diameter rose, for Medeco 32 Series I/C
- 5 = Classic, for KeyMark I/C
- 6 = Modern, for KeyMark I/C
- 7 = Classic with 3 1/8" diameter rose, for KeyMark I/C
- 8 = Modern with 3 1/8" diameter rose, for KeyMark I/C

Key-In-Knob Lockset

- 1 = Classic
- 2 = Modern
- 3 = Classic with 3 1/8" diameter rose
- 4 = Modern with 3 1/8" diameter rose

Finish

- 05 = Bright Brass
- 12 = Satin Bronze
- 13 = Oil Rubbed Bronze
- 30 = Satin Stainless Steel

Knob Option

- 1 = Abrasive coated, outside knob only
- 2 = Abrasive coated, inside knob only
- 3 = Abrasive coated, outside and inside knobs
- 4 = Standard, uncoated knob

Strike

- 0 = No strike, dummy trim only
- 1 = 4 7/8" (124mm) ANSI curved lip
- 2 = 2 3/4" (70mm) T-strike curved lip with dust box

Latch

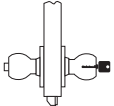

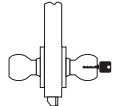

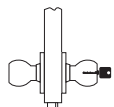

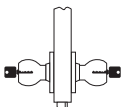

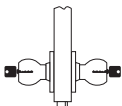

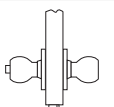

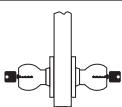

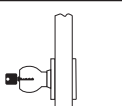

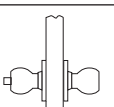

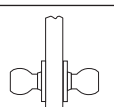

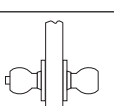

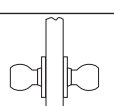

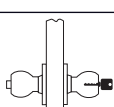

- 0 = No latch, dummy trim only
- 1 = 9/16" (14mm) throw, 1 1/8" x 2 1/4" (29mm x 57mm) front. Available only with 2 3/4" (70mm) backset
- 2 = 1/2" (13mm) throw, 1 1/8" x 2 1/4" (29mm x 57mm) front. Available only with 2 3/4" (70mm) backset.
- 3 = 3/4" (19mm) throw, 1 1/8" x 2 1/4" (29mm x 57mm) front. Available only with 2 3/4" (70mm) backset, deadlatch only.
- 4 = 1/2" (13mm) throw, 1" x 2 1/4" (25mm x 57mm) front. Available only with 3/8" (60mm) backset.

Backset

- 1 = 2 3/4" (70mm)
- 2 = 2 3/8" (60mm) (24 Series Only)

Door Thickness

- 0 = Dummy Trim
- 1 = 1 5/8" to 2"
- 3 = 2" to 2 1/4"

24 & 25 Series Function	Function #		ANSI #	Knob
	KIK	I/C		
Entrance: Deadlocking latch by lever/knob either side. Outside locked by push button inside. When outside locked by push button inside, key opens lock, unlocks push button. Inside lever/knob always opens latch.	23	03	F109	
Classroom: Deadlocking latch by lever/knob inside. Outside lever/knob locked or unlocked by key.	24	04	F84	
Storeroom: Deadlocking latch by lever/knob inside, key outside. Outside lever/knob always locked.	25	05	F86	
Public Entrance: Deadlocking latch by lever/knob either side, except when outside lever/knob locked by key inside. Key outside retracts deadlocking latch. Inside always open.	26	06	F88	
Asylum: Both levers/knobs always locked. Deadlocking latch by key both sides.	29	09	F87	
Patio: Latch by lever/knob either side unless outside lever/knob locked by push button inside. Unlocks by turning inside lever/knob or closing door.	2D		F77	
Communicating: Key in both levers/knobs. Locks or unlocks either lever/knob independently of the other.	2B	0B	F80	
Communicating Classroom: Blank outside. Inside lever/knob locked or unlocked by key. Deadlocking latch.	2F	0F	F113	
Privacy: Latch by lever/knob either side unless outside lever/knob locked by push button from inside. Outside unlocks by turning inside lever, or outside emergency turn or closing door.	01		F76	
Passage: Latch by lever/knob either side.	02		F75	
Exit: Deadlocking latch by lever/knob either side except when outside locked by turn button inside. Inside lever/knob always opens latch. Turn button must be manually operated to unlock outside.	2C		F83	
Exit: Deadlocking latch by lever/knob inside. Outside always locked.	2E		F89	
Dormitory: Deadlocking latch operated by knob either side except when outside Knob is locked by key outside or pushbutton inside. Key outside locks or unlocks outside knob. Unlocked by turning inside knob, closing door or using key outside.	2H	0H	F90

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

BiLevel Patented Key Control

BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or covert attack.

KeyMark Patented Key Control

KeyMark cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Electronic Access Control

Many of the locks in this section are also available with EAC. See the Electronic Section for more details.

Medeco Padlock Technical Information:

- ❖ Solid brass body provides strength and protection against forced attacks and outstanding resistance to the elements
- ❖ Boron alloy steel shackle resists cutting and pulling attacks
- ❖ Hardened stainless steel shackles available for enhanced corrosion resistance
- ❖ Thermoplastic body cover and cylinder dust cover on all models resist chemicals, water, heat, and scratching
- ❖ Weather seals around shackle legs prevent dirt, dust, water, and other contaminants from entering the padlock
- ❖ Solid cast iron shackle guard to protect against bolt cutter attacks provides maximum shackle protection on shrouded models. Shrouded models do not include weather seals

Medeco Hockey Puck Padlock Technical Information:

- ❖ Full-size 5 pin cylinder allowing keying into standard master key systems
- ❖ Incredibly strong design style with no shackle at risk
- ❖ Flexible unique cylinder available in all Medeco technologies – including KeyMark
- ❖ Case hardened black chrome steel body with high security or key control cylinder

Medeco G8R Series Padlock Technical Information:

- ❖ Solid stainless steel body
- ❖ 1/4 - 20 x 1/2" tapped hole in body for attaching chain or cable
- ❖ Stainless steel or case hardened steel shackles
- ❖ Padlocks are sold less cylinder, cylinder available high security only.
- ❖ Compatible with NEXGEN® electronic T-handle cylinders, and Medeco mechanical T-handle cylinders

Cam & Switch Locks

ASSA ABLOY, the global leader in door opening solutions

medeco
HIGH SECURITY LOCKS
ASSA ABLOY

Medeco high security cam and switch locks are recognized throughout the world as the standard for protection in 3/4" diameter locks. No other utility lock can be compared with Medeco's proven track record of security and long term reliability. Medeco cam and switch locks utilize hardened, stainless steel inserts throughout the cylinder to provide

the ultimate defense against drilling, pulling, and other forms of vandal attack. These locks are available keyed alike, keyed different, or master keyed, and offer patented key control programs to prevent the unauthorized duplication of keys and maintain system integrity.

Cam & Switch Locks

FEATURES	MEDECO ³
Easily integrated into existing cam lock master key systems	●
Easy installation	●
Completely serviceable and may be rekeyed in the event of a lost or stolen key	●
UL437 Listing on cylinder for high security	●
Cam locks available in all standard lengths, flats, and rotations	●
Switch locks available in single or double switch models and momentary and maintained positions with silver or gold contacts (for low amperage applications) designed to accept quick connect leads	●

Cam Lock Technical Information:

- ❖ Three, four, and five pin models available
- ❖ Available in standard sizes from 7/16" to 2"
- ❖ One and two flat models available
- ❖ Key-retaining and non-key retaining models available
- ❖ Clockwise or counter clockwise rotation, 90° or 180°
- ❖ Keyed alike, keyed different, or master keyed

Switch Lock Technical Information:

- ❖ Five pin, double D mounting standard
- ❖ Available in either single or double switch models with silver or gold contacts
- ❖ Rated at 7 amps resistive at 125/250 VAC
- ❖ Contacts designed to accept quick connect leads (amp connector number 60598-3)

Warranty:

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

Electronic Access Control

Many of the cylinders in this section are also available with EAC. See the Electronic Section for more details.

How To Order Cam & Switch Locks

Here are the 2 things you need to know to order cam locks:

1. What's the base part number by determining the length of cam lock needed?
2. What keyway?

Here are the 3 things you need to know to order switch locks:

1. Determine whether you need a single or double switch?
2. What keyway?
3. Determine the operation code needed?

To order custom high security cam locks, switch locks, threaded extension locks, or other specialty cylinders:

Go to the cam lock part number configurator at www.medeco.com, or contact Customer Service for assistance. **All cam and switch locks (except All N One cam locks) in this section are priced without keys.**

Offering hundreds of cam and cylinder length configurations, Medeco can fit nearly any application requiring a 3/4" diameter lock. Don't see need cam lock you need listed in our product catalog? Call our customer service department – chances are we have the specialty configuration that you need.

Many cam and switch locks are also available in either Logic or Nexgen electronic formats. See the e-cylinder section for more information on Logic, or contact Medeco for Nexgen industrial applications.

All-In-One Cam Lock Kits

Description	Part Number

1/4-28 x 2 1/2" Socket Head Cap Screw	CP-011520-400

Software, Keys, Keying Charges and Other Tools

ASSA ABLOY, the global leader in door opening solutions

medeco
HIGH SECURITY LOCKS
ASSA ABLOY

SOFTWARE, KEYS, ETC.

Powerful yet simple solutions are a hallmark of Medeco products. Security is a system with many components. If any part of the system doesn't work effectively, the entire system runs the risk of breaking down.

Key Wizard is a comprehensive key management software package developed for locksmiths and end users to track

detailed information on keys, keyholders, and locations. The program features easy to navigate screens that make it easy to manage an entire system of keys, locks, and associated door hardware.

MEDECO® KEY CONTROL PROGRAM REFERENCE CHART

M3 = Medeco³ patent expiration date: 2021.

BIA = Biaxial patent expiration date: 2005.
Upgrading to Medeco³ recommended.

ORG = Original patent expiration date: 1985.
Upgrading to Medeco³ recommended.

 = Permission for copying keys is obtained by presenting a signed authorization card, which is matched to proper identification.

 = Permission for copying keys is provided by identification and signature verification, which must be presented to either the original locksmith provider or the facility manager.

 = Keys can be cut on-site by dealers or end-users that are contracted to participate in the respective key program.

 = Keys are ordered locally and cut at a regional service center and then shipped back to the dealer.

 = Keys are cut at the Medeco factory and shipped to dealer. Authorization is provided by signature verification.

 = Medeco recommended high security—UL 437 Listed, ultimate Grade 1 strength, and A156.5-2001 and A156.30 Level A Certified.

MEDECO³® IS RECOMMENDED BY SECURITY PROFESSIONALS AS THE LEADER IN HIGH SECURITY AND PATENTED KEY CONTROL.

E-CYLINDER

Flexibility Merged With Security

Medeco's new E-Cylinder platforms merge the flexibility of electronics with reliable mechanical technologies—all in a retrofit cylinder. Three exciting new product lines--Logic, Hybrid Key, and Hybrid Cylinder—offer end-users audit

trails, custom access schedules, and the ability to quickly add or remove a key from a system. And, unlike other products, Medeco E-Cylinders install with no wiring in a matter of minutes.

Hybrid Key Technical Specifications

26 Bit Format: 125kHz and 13.56MHz Hybrid Prox

The 26-bit format is open format and industry standard, and sales of this format are not limited to any one company or end user. The range of card numbers available in this format is limited and therefore there is a potential for card numbers to be duplicated. Convenience in ordering cards and universal access control panel acceptance are the primary benefits in using the standard 26 bit card format.

The 26-bit format consists of 255 possible facility codes. Within each facility code there is a total of 65,535 unique card numbers.

iClass memory options

iClass Hybrid Keys are available in two memory size options: Application Area 1 for each configuration is reserved for HID Access Control Applications.

- 2k Memory/2 application areas
- 16k Memory/16 applications areas

Sequential number request and/or duplicate number requests

Both Hybrid Prox and iClass keys are cable of duplicating serial numbers. Serial numbers are provided by the customer using the Medeco forms created and are subsequently processed with the Factory order.

Specific Site/Facility code requests

Site Facility codes are provided by the customer using the Medeco forms created and are subsequently processed with the Factory order. There are a total of 255 possible facility codes (0-255) available using the 26-Bit Wiegand format

Read-range for 125kHz and 13.56Mhz Hybrid Keys.

Read range is approximately 1-2 inches for both 125kHz and 13.56Mhz versions of the Hybrid key. The read range is installation dependent, per reader manufacturer information.

RETROFIT CYLINDERS

UPGRADE YOUR EXISTING HARDWARE...

The easiest and most effective security enhancement you can make is to upgrade your existing hardware with Medeco premium high security retrofit cylinders. Regardless of how durable your door hardware is, if it can be compromised by use of an unauthorized key or by drilling a substandard cylinder, it has not protected anything. Medeco³ cylinders feature UL437 Listed physical strength components like the triple locking technology for ultimate pick resistance and solid brass construction with strategically placed hardened inserts to thwart drilling attacks.

One patent protected key operates both the BiLevel and the Medeco³ cylinders. Both high quality cylinders from Medeco allow you to install the level of security needed on each door. Medeco patent protected keys may also utilize a special Hybrid key head with proximity technology for even greater flexibility in securing a complete system.

KeyMark is the perfect security upgrade for Best®-style small format interchangeable core (SFIC) installations. In addition to SFIC cylinders, KeyMark is also available in many other styles of retrofit cylinders and can be keyed into a single system. KeyMark retrofit cylinders provide utility patented protection against the unauthorized duplication of keys.

Knob, Lever, & Padlock Technical Information

A = Front Length
B = Bible Length
C = Cylinder Length

D = Cylinder Height
E = Cylinder Diameter
F = Tailpiece
(not shown in illustration)

G = Effective Length
H = Plug Face Diameter

KNOB: DRAWING 1

NOTE: C IS FROM THE PLUG FACE TO THE EXTREME REAR OF THE PLUG OR TAILPIECE AS APPLICABLE

medeco
HIGH SECURITY LOCKS
ASSA ABLOY

AUXILIARY LOCKS

Medeco offers a complete line of high quality auxiliary locks engineered to provide superior physical protection and key control to fit your security needs. This includes deadbolts, dropbolts, residential locksets and padlocks.

Medeco locks are designed with specific features that resist the techniques that thieves use to gain entry and include the Medeco patented technologies to assure keys aren't copied without authorization.

The security of a Medeco lock ingrates flawlessly into any home or business with traditional commercial style or with a more refined residential sophistication. The broad range of finishes offer a seamless upgrade to existing hardware.

9	Outside Lever
10	Key
11	Outside Rose Insert Assembly
12	Lock Washer (2 Required)
13	Flexible Adapter
14	Chassis
15	Screw Phillips Head Pan-Head #6 x 3/4
16	Screw #10-32 x 2 1/4" (2 Required)
17	Strike
18	Retainer
19	Cylinder
20	Push Pin

Medeco Premium High Security 18 Series Grade 2 Lever

Item	Description
1	Inside Lever
2	Rose Scalp (2 Required)
3	Screws - Self-tapping #6 x 3/4" (2 Required)
4	Screws - Through bolt #8-32 x 2 1/8" (2 Required)
5	Inside Rose Insert Assembly
6	Chassis
7	Spacer
8	Outside Mounting Plate
9	Outside Rose Insert Assembly
10	Cylinder Spacer
11	Cylinder Retainer
12	Cylinder
13	Outside Lever
14	Key
15	Push Pin
16	Latch
17	Screws - Latch & Spring #8-32 x 3/4" (4 Required)
18	Strike
19	Strike Box
20	Bushing For 1 3/8" Thick Door Only
21	Outside Mounting Plate For 1 3/8" Thick Door Only

Medeco Premium High Security Embassy Knob

Item	Description
1	Outside Knob (heavy cold forged, steel reinforced to resist crushing)
2	Multiple keying options. Solid brass KIK cylinder shown
3	Outside knob skirt
4	Outside rose (cold forged, steel reinforced to easily adjust for door thickness)
5	Door thickness gauge
6	Chassis (heavy gauge cold rolled steel)
7	Steel mounting plate
8	Mounting screw
9	Inside rose
10	Inside knob
11	Reversible deadlatch with stainless steel bolt

CAM & SWITCH LOCKS

Medeco high security cam and switch locks are recognized throughout the world as the standard for protection in 3/4" diameter locks. No other utility lock can be compared with Medeco's proven track record of security and long term reliability. Medeco cam and switch locks utilize hardened, stainless steel inserts throughout the cylinder to provide

the ultimate defense against drilling, pulling, and other forms of vandal attack. These locks are available keyed alike, keyed different, or master keyed, and offer patented key control programs to prevent the unauthorized duplication of keys and maintain system integrity.

Medeco Shipping & Return Policies

The Medeco Commitment

Medeco strives to maintain consistent pricing at the lowest possible level. However, unexpected increases may cause changes in our pricing. Therefore, all published prices are subject to change without notice and are not guaranteed. All shipments will be made at prices prevailing at time of shipment. As much as we try to publish error free material, we reserve the right to correct typographical, clerical, editorial, pricing, quantity, or any other errors in this or any publications produced by Medeco Security Locks, Inc. without prior written notice or disclaimer.

Shipping Times:

Many items are available for shipment within 5 work days, and most items will be shipped in 10 days or less.

Shipping Charges:

For most U.S. customers published rates will apply. Shipping charges for customers in Canada and elsewhere outside the U.S. will vary. Contact Medeco Customer Service for more information about Medeco's freight rates.

Customers Outside the U.S.:

Due to specific taxes, import/export fees, and exchange rates, pricing and shipping will vary from U.S. list prices for customers in Canada and elsewhere outside of the United States.

Product Returns:

Medeco accepts product returns if the product is defective from a manufacturing flaw. If you need to make a return, call your customer service representative for a Returned Goods Authorization (RGA) Number. The RGA Number must be visible on the outside of any package returned to Medeco.

Damaged Goods:

All orders are carefully filled, checked, and packaged. However, on rare occasions, a package may be damaged in transit. If this occurs, please make note of it on the delivery receipt before signing. To return merchandise that was damaged during the shipping or delivery process, call Medeco Customer Service.

Partial Shipments:

If all items on your order are not available at the time your order is processed, you must specify whether you want Medeco to hold the shipment until it is complete or send partial shipments as items are available. Orders received without specific shipping instructions will be filled at the discretion of Medeco.

Medeco® Warranty for Mechanical & Electromechanical Products

Medeco Security Locks Inc. (“Medeco”) warrants to the original purchaser of a Medeco branded lock, lock cylinder, or electromechanical door hardware product (referred to collectively as “Product”) to be free of defects in material and/or workmanship for a period of two (2) years from the date of original purchase for use. This Warranty may also apply to other specific products. For additional Warranty information or Warranty claim service contact Medeco Customer Service at (800) 839-3157 or in Canada (888) 633-3264.

In the event of a defect in material or workmanship during the Warranty period, Medeco will repair or replace (at its option) the Product under the conditions of this Warranty, this action being the sole remedy available to the purchaser under this express limited Warranty.

Limitations, Exclusions and other Rights:

- a. Medeco disclaims liability for implied warranties including but not limited to those of merchantability or fitness for any particular purpose.
- b. Medeco disclaims liability for indirect, incidental or consequential damage at any time.
- c. Medeco warrants that Maxum deadbolt products are free from defects in materials and workmanship for the life of the product. This warranty does not cover defects or damage arising from improper installation, lack of or improper maintenance, ordinary wear and tear, misuse, abuse, or accident.
- d. Medeco Embassy Locksets carry a three year warranty against manufacturers’ defects.
- e. This Warranty gives specific legal rights and a buyer may also have other rights that may vary from state to state. Some states do not allow limitations on indirect, incidental, and consequential damages or implied warranties so that the above limitations may not fully apply.
- f. Medeco keyblanks are made from a special nickel silver alloy. Medeco warrants its keys against defects in workmanship or breakage for the life of the Product. Bitted Medeco keys must be precisely cut to exact angles and depths, and require special duplication. This Warranty shall be void and Medeco disclaims liability of any kind in the event any key other than a genuine Medeco key has been used with the Product or that the key has been cut on any machine other than a Medeco or Medeco-approved key cutting machine.
- g. Medeco shall not be held responsible for damage arising from, in its sole judgment, improper installation, failure to provide normal maintenance, extreme environmental conditions, use rates in excess of the industry standards defined for the type of product, use of incompatible parts or products not made or authorized by Medeco, or application of force not resulting from normal use.
- h. Unless otherwise specified by separate warranty, finishes are warranted for a period of two years following purchase for use. This finish Warranty shall be considered void after installation if, in the sole judgment of Medeco, the damage to the finish is the direct result of extreme climatic conditions, chemical or abrasive actions.

Medeco® Architectural Product Specifications

All lock cylinders are to be of a high security, pick resistant design with angled key cuts, rotating tumblers, a keyway side biting, and a slider mechanism. Cylinders shall be Underwriters Laboratories UL437 Listed (UL Standards for Safety for Key Locks). Cylinders shall be Certified to American National Standards Institute (ANSI)/Builder's Hardware Manufacturer's Association (BHMA) certification A156.30 2003 (High Security Cylinders Products), Levels M1AM and ANSI/BHMA A156.5 2001 (Auxiliary Locks & Associated Products), Grade 1.

All cylinders shall incorporate three locking elements, consisting of a slider mechanism, a sidebar mechanism with tumbler rotation, and pin tumbler elevation. The critical parts of the locking mechanism such as pins, shear line, sidebar, and slider mechanism shall be afforded extra protection from drilling and other forceful attack by the strategic placement of hardened steel inserts in at least 7 possible locations within the cylinder. The lock tumblers shall combine a dual-axis action, with one axis utilized for pin tumbler rotation and the other axis utilized for positioning key cuts. Randomly selected tumbler pins shall incorporate a hardened steel insert for additional drill protection.

The locking system is to be furnished in a restricted key section for which keys are not made available from the manufacturer's factory or any other source by normal distribution methods. The key and cylinder must have utility patent protection so as to ensure against unlawful key duplication. The keys and key blanks must be capable of being furnished to allow an upgrade to a dual mechanical and electronic credential by the single exchange of a field removable key bow. The key thickness should be no less than .125" (one hundred, twenty-five thousandths).

The manufacturer shall have the capability of establishing a key system with a minimum of six angle cuts in six possible pin positions with the capability of two distinct positions of cut per pin chamber, if required by the parameters of the system. The manufacturer shall have the capability of producing a patent-protected keying system in either of two distinct and different keying specifications and pinning specifications. The system shall be capable of incorporating a key which is capable of more than one biting per position to expand master keying and key changes. The key shall also incorporate the capacity to include twelve possible side bittings along the key blade located on two different planes or surfaces of the key. The system shall also have the capability to provide a single master key with over 1,000,000 (1 million) usable, non-interchangeable change keys in a single keyway.

The cylinders shall be immediately rekeyable to new combinations or a new system at any time desired and shall be serviceable on location in the field. Installation of cylinders shall require no modification to U.S. manufactured commercial grade locksets.

The locking system established for this project shall be proprietary and the owner will furnish the manufacturer a list of those persons and their signatures that will be authorized and required to order additional pinned materials or duplicate keys. Orders not bearing authorized signatures will not be filled.

All master keys and biting lists for this project shall be sent using appropriate shipping carriers from the factory directly to the owner. Prior to shipment of keys, the owner shall verify in writing preference for shipping carrier.

KeyMark® Architectural Product Specifications

Cylinders shall be of the knob, rim, mortise, or interchangeable core type. All cylinder components (excluding tumbler pins) shall be constructed of extruded brass. All cylinders, cores and housings shall be available in all standard architectural finishes and shall match the cylinder housing and lock and door hardware. Further, cylinders and housings shall be plated, not scalped with the appropriate finish. Cylinders shall be certified to ANSI/BHMA A156.5, Grade 1.

Cylinders to be of the 6 or 7 pin tumbler type, providing the maximum unique, non-interchangeable key combinations respectively. Further expansion of a master key system shall be available by use of additional multiplex keyways. Cylinders shall not lose any combinations due to MACs (maximum adjacent cut) loss.

All cylinders shall use a .150" space dimension between tumbler pin chambers and shall be capable of using industry standard tumbler pins. Cylinder shall contain standard pins, a portion of which (both bottom and top pins) shall be spooled to resist pick attacks.

All non-I/C rim and mortise cylinders shall be so constructed to use threaded set screws, not staked covers or caps, to cover each individual tumbler pin chamber.

Cylinders of all types, including knob, lever, rim, mortise, small format interchangeable core and large format interchangeable core, shall all be capable of operating within a single master key system.

All cut keys, key blanks and cylinders (knob, rim, mortise, and interchangeable core-type) shall be so constructed to be capable of being keyed in the same system, allowing the convenience of one master key to operate all types of listed cylinders. Further, the key or key blank's tip shall be so constructed to correctly locate the bits of the key beneath the proper chamber of an interchangeable core cylinder by locating against a key stop on the rear core. Additionally, the key or key blank's shoulder shall serve as a stop to correctly locate the bits of the key beneath the proper plug chamber of rim, mortise and knob-type cylinders by locating against the front face of the cylinder.

All cut keys and key blanks shall be utility patented and controlled by a contract between the end user and the manufacturer. Key blanks for this project shall be delivered directly from the factory to the end user unless otherwise requested in writing by the end user.

All keys must be capable of being configured to allow an upgrade to a dual mechanical/electronic credential by the simple exchange of a field removable key bow.

All cut keys and key blanks shall be constructed with a lower angled portion that exits the cylinder plug at an angle of 5 to 85 degrees. Further, the key or the key blank's lower angled portion shall mate with a similarly constructed utility patented cylinder that has an angled keyway that accepts the end user's contractually controlled keys and key blanks.

All key blanks shall be custom coined with the end user's name or other unique identification mark. All cut keys and key blanks are to be constructed from nickel silver.

All keys shall be capable of being cut by a punch machine that originates the exact cut in the key from the code sheet, instead of using patterns. The key machine's vise component for holding key blanks is to be utility patented. Distribution of this vise component shall be contractually controlled by the manufacturer.

All interchangeable core type cylinders shall have a keyway with lower angled portion, such that the keyway exits the plug at an angle preventing access to the core's pin ejector holes (located in the bottom of the core) by insertion of a lock picking tool or tools through the keyway.

All cylinders, cores, housings, keys and key blanks shall be made in the USA.
