

Eos Lockset

The attractive solid brass Eos is a beautiful complement to the Maxum® residential deadbolt or as a stand alone locking knob or lever. The Eos boasts graceful lines and smooth operation and is available in either a key-in-knob or key-in-lever design to coordinate with most residential hardware styles.

A Handful of Elegance

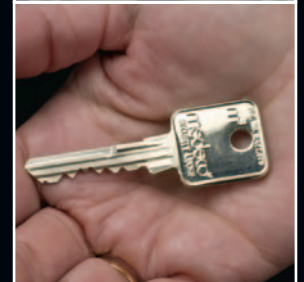

As you turn the Eos knob or lever, you will immediately understand the attention given to every mechanical and aesthetic detail. Its smooth operation and beautiful finishes will enhance any entry.

Control Over Your Keys

The locking technology in the EOS lockset is BHMA A156.30 Certified, giving you assurance that your keys are fully protected from unauthorized duplication as well as a UL437 Listing for protection against picking and drilling attacks. With this protection, you are assured of knowing exactly who has access to your possessions and loved ones. Additionally the EOS, like all Medeco Residential locks, can be masterkeyed for maximum flexibility.

Available In Many Styles & Finishes

The Eos is available in a knob or lever design and in most popular finishes. Its styling is a perfect match to the Maxum residential deadbolt.
