

KeyMark® I/C Core Fits Corbin Russwin® Hardware!

The KeyMark Interchangeable Core cylinder is now available to fit most Corbin Russwin hardware, making the KeyMark line of patented cylinders one of the most versatile available. Without changing hardware, you can enjoy the benefits of a patented cylinder, Medeco/KeyMark quality, and the convenience of an interchangeable core system.

Features

- Patented Key Control
- Unique design allows keying compatibility with any KeyMark cylinder or I/C core
- Jewelry quality finish
- Proprietary, patented key cutting device means greater key control
- Utility patented Security Leg® key blanks cannot be copied without proper authorization

Compatibility

Retrofits into the following Corbin Russwin hardware:

- CL3300, CL3600, and CL3900 Series Lever Locks
- CK4200 Series Knob Locks
- ML2200 Series Mortise Locks
- CL3100 and DL4000 Series Deadlocks
- CL3200 Security Bolts
